

## Compost Tea Systems™

### System100™

The System100, our most popular model, is ideal for operations of 10 to 50 acres. This durable System meets the needs of daily compost tea users including mid-size farms, landscape contractors, garden centers, and compost facilities. The System100's patented design and industrial grade components ensures efficient and reliable compost tea production.

#### Features

- Patented Compost Tea System design
- Fine Bubble Diffusion technology
- Industrial grade components
- Highest quality aeration system available
- Four durable stainless steel compost baskets

### Saturdays: Sold Out!

“Being a local home and garden store specializing in organics, the Growing Solutions Compost Tea System 100 is a natural fit for us. Because of our customer loyalty, word of mouth and the quality of our tea, we regularly sell through our 100 gallons by noon on Saturdays. No other product in our store is as popular and sought after than compost tea during the spring growing season.”

—Chris Donohue, General Manger, Down To Earth, Eugene, OR

## Compost Tea Catalyst™

This unique blend of ingredients is formulated to support diverse microbial growth during aerated compost tea production. In addition to seaweed extract, humic acid and mineral powder, our Catalyst contains an array of select botanical ingredients without the use of simple sugars.

### Compost Tea Catalyst

Available in four sizes:

15 ounces/425 grams

4.5 pounds/2 kilograms

9 pounds/4 kilograms

45 pounds/20 kilograms
